

# Manila Line

Single ply film to all the transit cars

**Project Overview:**

INPS was tasked to supply a transparent product to protect the window on the transit cars.

**Challenge:**

To offset damaged graffiti to the glass windows. The film can be easily removed and replaced vs the cost of replacement glass.

**Solution:**

Supplied and installed single ply window film. INPS also supplied car numbers, logos and safety decals. Interior door covers, safety walk etc. Each transit car was completed and shipped.

CAF is the global train manufacturer who built the trains, with locations in Mexico.

**Project Details:** Location: Mexico

**Scope of Project:**

- 30 trains x 8 cars per train
- 240 train cars
